WHY A SUMMIT?

With the launch of the d.velop SUMMIT in 2024, we have created – together with our partners – an annual space for inspiration, experience, and knowledge-sharing for more than 2,000 people. The event brings together those who are engaged with the latest challenges, efficient solutions, and forward-looking innovations in digital document management and intelligent business processes.

The d.velop SUMMIT is aimed at everyone focusing on highly efficient content services applications, AI-driven information processes, and European data sovereignty. It serves as the central meeting point for the entire d.velop community, including decision-makers and users across various markets and industries, the developer community, partner companies, and ultimately all d.velopers. Nowhere else, at no other time of the year, will you feel the spirit of the d.velop community as intensely as here.

Take the opportunity for your company to play an active role.

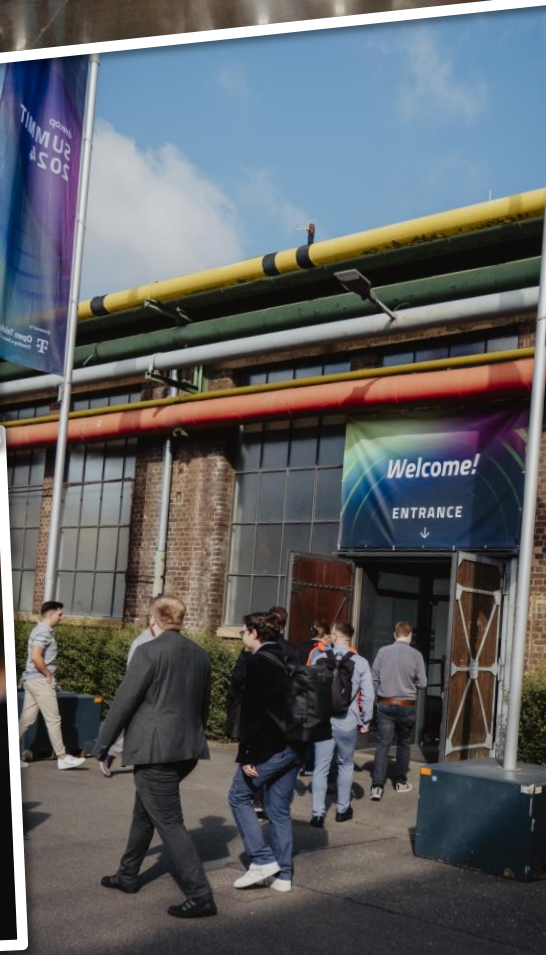

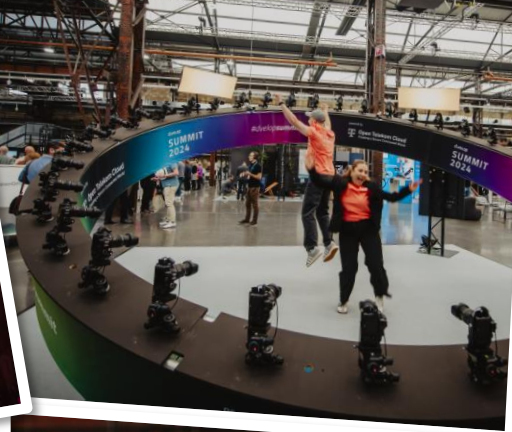

Become an important part of the d.velop SUMMIT 2026.
